

DAILY NEVADA STATE JOURNAL.

VOL. LVI.

RENO, NEVADA, WEDNESDAY MORNING, SEPTEMBER 18, 1901.

NO. 42.

SPARKLING WITH GOLD

Lich Quartz from a Mine in Olinghouse Gulch.

W. H. Jackson, one of the owners of the Jumper mine in Olinghouse canyon, is spending a day or two in Reno. He brought with him a two-ton box filled with selected ore from his mine. Without exaggeration it may be said to contain more gold than quartz. Of course, rock is there, running over \$100,000 to the ton, occurs infrequently in the ledge, but the entire body carries good veins. This mine paid a half-ton last year.

There was a small exhibition of gold at the Olinghouse canyon in the pavilion tomorrow. The miners have on, by a waiting for a guarantee that specimens would be safely sent back turned. Indeed in this display will be a quantity of lead running many dollars to the pound.

M. Jackson says that the output of the Gulch will be at least twice what it was last year. Three of the men there are now paying billion tax and there will be several more next quarter. As depth is being attained it is proven that the splendid values on the surface are run down. Mr. Jackson obtained his greatest values from the hundred foot level. On the 150 foot level he has not dug into his ore chute although it is already in ledge matter assaying well.

Excursion to the State Fair. The Awnings Are Hung Too Low.

It is the custom of the State Fair to have awnings in the grand stands and in the various buildings. These awnings are suspended below the elevation height. Sheriff McNamee has been making the rounds notifying business men to raise their awnings so that Olinna, the giant steel roneman, will not stomp in his hat.

BIDDING FOR COASTOCKORE

The Salt Lake Smelters Want to Work the Rock.

The Salt Lake Tribune has the following concerning the recent shipment of Con. Cal. & Va. ore:

The smelters of Salt Lake Valley have thrown down the gauntlet, and from this time are prepared to compete with Selby of California for the bulk of the great Coastockore of Virginia City, Nevada. For many years the output of the historic lode, with its valuation of over \$500,000,000, has been going west, and while the cost of production has been steadily reduced, the consignors in the correspondence with the managers of local plants, represent that the old, patriarchal scale has been quite closely adhered to.

To determine the difference between working charges at this point and those on the Pacific's belligerent shores, the management of the Con. Cal. & Va., whose interests are spread over the Coastockore, arrived in Salt Lake with a trial lot on Tuesday. The consignment came through Taylor & Bunting and was yesterday present on

is easily obtained by using our wall paper, which matches either, but will be dry, store by 28. Monday. Tasteful Decorative Co.

GREATER PRECAUTION.

IT IS fortunate, and also creditable to the city authorities of Buffalo that the monster Czolgosz did not fall a victim to the righteous wrath of the crowd, at the time of the assassination or when the last spark of life in his victim was extinguished.

One of the greatest evil effects of lynch law is the frequency of escape of accomplices of the criminal by his death, which almost invariably removes all chance of tracing those who were directly or indirectly concerned in the perpetration of the crime. This is particularly applicable to the Czolgosz case as the murderer has already said enough to justify the inference that others were connected with him, directly or indirectly in the commission of the murderous act. If professed Anarchists are to be driven out the attack must be made direct; laws must be enacted and construed, restricting the rights of free speech, to the extent at least that a man professing or known to hold beliefs and theories such as anarchists advance, must be adjudged insane, or something worse and be kept under rigid restraint. We have been too tolerant with such men as Herr Most and women like Emma Goldman. There is no telling what they may do; they have repeatedly shown their violence, their irresponsibility and it is the duty of organized society to protect itself, and themselves from violent and insane acts. But it is not lynch law that can afford such protection. It is in legally enacted and well executed laws that protection must come. Precaution, and not swift and unlawful vengeance that will have the desired effect. The professed Anarchists of this country, or perhaps but a few may have known of this man's purpose; there is yet but little evidence that Czolgosz had an actual accomplice, but it is not improbable that more will be developed before the termination of the murderer's trial. But whether there is or not, there is nothing in anarchistic belief which does not leave it to be inferred that there is not one of them who would not have performed the act as readily as he, had they seen the opportunity, or would not do another as extremely atrocious. Such beasts in human form cannot be tolerated at liberty; a practical method of seeking them out, and driving them from the country or placing them under safe restraint must be evolved. The situation is too serious to be passed over lightly; the problem is present, and it should be solved and still kept within the bounds of regularity and law, founded upon true justice and liberty.

AMERICAN LOCOMOTIVES AHEAD.

IT WILL be remembered that a short time ago there was quite a discussion in the British Parliament over the comparative merits of English and American made locomotives. As bearing upon the results of some tests lately made on a railroad in Kingston, Jamaica, are of peculiar interest.

These tests, which are especially significant because held under British auspices, resulted in a greater victory for the American locomotives and demonstrated beyond all controversy their superiority in pulling capacity. The American locomotive drew 126 tons over the heaviest part of the road in seven minutes; under schedule time, while the English locomotive completely failed to pull the same load. More conclusive proof of greater strength and higher workmanship could not be presented.

Such trains are of course unknown in Europe, and foreign engines can hardly be said to be in the same class with the American. It is not an uncommon sight for a New York Central or Lake Shore engine to pull trains that are the equivalent in length and weight of eight or ten European trains.

Last year American manufacturers sent abroad 505 locomotives. In 1899 we exported 514 machines and in 1898 554. The falling off in exports is due to the increased domestic demand resulting from the phenomenal prosperity of American railroads. Some idea of the domestic demand may be gained from the fact that last year there were turned out of the American shops 3,153 engines, the largest number ever built in that time in the history of the country.

These tests call attention to some of the recent wonderful performances of some of the new types of American built locomotives. One of these new types, built by the Schenectady works for the New York Central, recently pulled thirteen heavy passenger coaches, weighing 1,000,000 pounds, at a speed of 63 miles an hour. Another one of these engines pulled a train of fifteen cars, including four heavy sleepers and weighing 1,800,000 pounds, at a rate of 60 miles an hour. On another run, with a train of ten heavy passenger cars, these engines made 111 miles in 109 minutes.

FIVE HUNDRED Missouri Democrats will be taken to the grave of Jefferson early in October. They have to be shown that he is dead.—Salt Lake Herald. We don't know whether the above was intended as a slur upon "five hundred Missouri Democrats," or not. If it was, and because they believe in and set upon the principles of that greatest of American statesmen, even nearly a century after his physical death, the shot widely misses its mark.

The principles of Jefferson are immortal and a visit to his grave will convince no Democrat or other patriot that they do not still live or that they are less worthy of admiration than before his immortal soul forsook its earthly tenement.

The State papers generally are complaining about the rottenness of the mail service in Nevada, and they are justified in their complaints. But there is one thing we may be thankful for—the service cannot get worse.—Wells Herald.

The idea that an industry that exports its products and sells them in foreign countries at lower rates than at home needs a protective tariff is about as absurd as would be the demanding of a bodyguard by Jeffries or Corbett if they were to take a notion to visit a kindergarten school.

RIDE A...

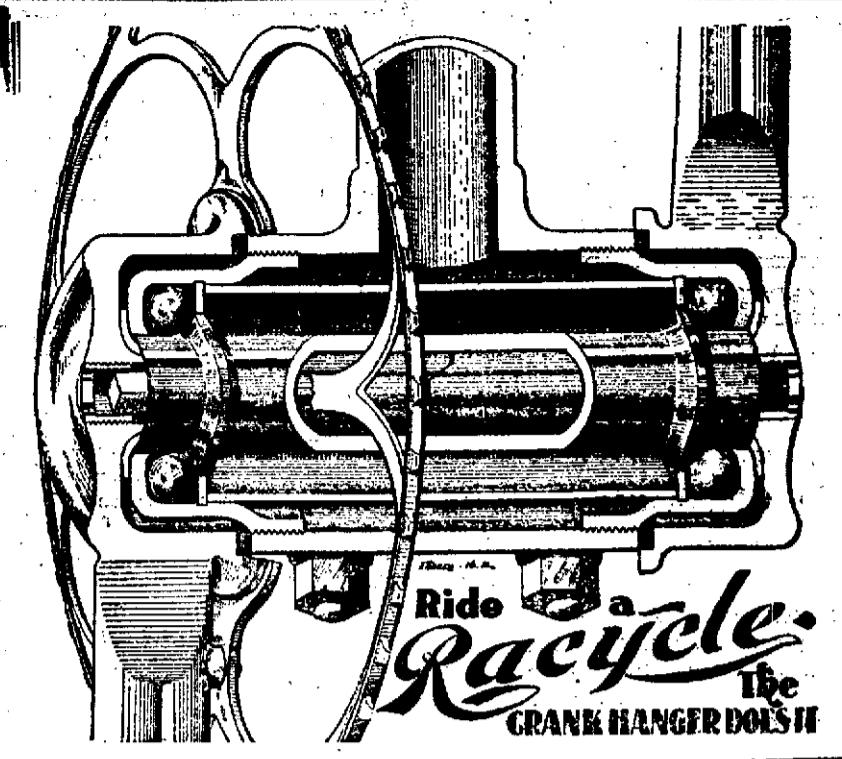

Recycle
... BICYCLE

"THE RACYCLE" has reached a point of perfection in mechanical construction that has not been attained by any other manufacturer of bicycles. Three of the largest manufacturers of bicycles copied or infringed on the Racycle patents—by getting the bearings out in the cranks—but through an injunction were forced to quit, though it cost them thousands of dollars. Prices are right and vary according to equipment—\$35, \$40, \$45, \$50, \$55, \$60, chainless \$75.

RENO CYCLE COMPANY

...Local Agents...

18 SECOND STREET :: RENO, NEVADA

THE ABOVE is a half-section of the Racycle self-oiling crank-hanger. The balls are out in a direct line with the cranks, throwing the chain pull between the bearings. In the hanger of the every-day bicycle the bearings in the hanger are less than two inches apart.

MEMORIAL DAY PROCLAMATION

A TERRIBLE BEREAVEMENT has befallen our people. The President of the United States has been struck down; a crime committed not only against the Chief Magistrate, but against every law-abiding and liberty-loving citizen.

President McKinley crowned a life of largest love for his fellow men, of most earnest endeavor for their welfare, by a death of Christian fortitude, and both the way in which he devoted his life and the way in which, in the supreme hour of trial he met his death, will remain forever a precious heritage of our people.

It is meet that we, as a Nation, express our abiding love and reverence for his life, our deep sorrow for his untimely death.

Now, therefore, I, Theodore Roosevelt, President of the United States of America, do appoint Thursday next, September 19th, the day on which the body of the dead President will be laid in its last earthly resting place, as a day of mourning and prayer throughout the United States. I earnestly recommend that all the people assemble on that day in their respective places of divine worship, there to bow down in submission to the will of Almighty God and to pay out of full hearts their homage of love and reverence to the great and good President whose death has smitten the Nation with bitter grief.

In witness whereof, I have hereunto set my hand and caused the Seal of the United States to be affixed.

Done at the City of Washington, the 14th day of September, A. D., one thousand nine hundred and nine, and of the Independence of the United States the one hundred and twenty-sixth.

[Seal.] **THEODORE ROOSEVELT.**
By the President, JOHN HAY, Secretary of State.

In accordance with the President's Proclamation above, I desire as Governor of the State of Nevada to supplement it with my earnest recommendation that the people of our State observe and respect the day named. In the manner suggested therein, by demonstrations of honor to the memory of William McKinley, late President of the United States.

In witness whereof, I have hereunto set my hand and caused the Great Seal of the State of Nevada to be affixed.

Done this 16th day of September, 1901.

[Seal.] **REINHOLD SADLER,**
Governor of the State of Nevada.
By the Governor, EUGENE HOWELL, Secretary of State.

STOOD DEATH OFF.

E. B. Lundy, a lawyer of Henrietta, Tex., once foiled a grave-digger. He says: "My brother was very low with malarial fever and jaundice. I persuaded him to try Electric Bitters, and he was soon much better, but continued their use until he was wholly cured. I am sure Electric Bitters saved his life." This remedy expels malaria, kills disease germs and purifies the blood; aids digestion, regulates liver, kidneys and bowels, cures constipation, dyspepsia, nervous complaints, kidney trouble, female complaints, gives perfect health. Only 50 cents a day at S. J. Hodgkinson's drug store.

NIGHT OF TERROR.

"Awful anxiety was felt for the welfare of the brave General Burnham of Machias, Me., when the doctors said he would die from Pneumonia before morning" writes Mrs. S. H. Lincoln, who attended her a feverish night, but she begged for Dr. King's New Discovery, which had more than once saved her life, and cured her of Consumption. After taking, she slept all night. Further use entirely cured her. This marvelous medicine is guaranteed to cure all Throat, Chest and Lung Diseases. Only 50 cents and \$1. Trial bottles free at S. J. Hodgkinson's drug store.

FREE OF CHARGE.

Any adult suffering from a cold settled in the breast, bronchitis, throat or lung troubles of any nature, who will only one bottle given to one person, all at S. J. Hodgkinson, will be presented with a sample bottle of Bogache's German Syrup, free of charge, and none to children without order from parents.

No throat or lung remedy ever had such a sale as Bogache's German Syrup in all parts of the civilized world. Twenty years ago millions of bottles were given away, and your druggists will tell you its success was marvelous. It is really the only Throat and Lung Remedy generally endorsed by physicians. One 75 cent bottle will cure or prove its value. Sold by dealers in all civilized countries.

The Monarch Saloon Company is putting on extra keepers to draw its celebrated Anheuser-Busch. It is the only eastern keg beer in Reno. If

Capt. DeLamar is said to have a number of experts in the field searching for copper properties, and is preparing to install a \$1,000,000 smelter in New Jersey.
